

DEMO UNIVERSITY
END SEMESTER EXAMINATION
DEC 2024

Date : 10/12/2024
Time : 3 Hours

Programme : B.Tech
Branch : Computer Science Engineering
Semester : III
Subject : Database Management System (DBMS)
Course Code : CSE201
Max. Marks : 70

Roll No. : 590017500
Candidate Code : 220100
Student Name : Suhana Bose

Note: Attempt all questions. All questions carry equal marks.

Q1. (a) What is a Database? Explain its characteristics. 1

Ans: A database is an organized collection of data that can be easily accessed, managed and updated. It is designed to store related data and reduce redundancy.

Characteristics of Database:

- * Self-describing nature
- * Program-data independence
- * Data abstraction
- * Reduced redundancy
- * Data integrity
- * Data security

(b) Explain the different types of keys in DBMS. 1

Ans: Different types of keys are:

1. Super Key - A set of one or more attributes that uniquely identifies a tuple.
2. Candidate Key - Minimal super key.
3. Primary Key - A candidate key chosen to uniquely identify tuples.
4. Foreign Key - A key in one relation that refers to the primary key of another relation.
